DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 3, 2007, has been entered.

Claim Objections

2. Claim 1 is objected to because of the following informalities: in claim 1, last line, the word "a" before "second tray" should be changed to -- said --. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-13 and 15-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites "a tray transferring apparatus for transferring a tray" in line 1, but positively recites "a fixing means provided on the main frame wherein the fixing means couples a first tray" in claims 1, lines 4-5. However, applicant further recites "a gripping means provided on the main frame wherein the gripping means grips a second tray" in lines 9-10, which is more than "one tray". It is not clearly understood that applicant is claiming "a single tray" or "at least two trays". Therefore, claim 1 is vague and indefinite. Similarly, claim 22 recites "a tray transferring apparatus for transferring a handling tray"

Art Unit: 3652

in line 1, but positively recites "the gripper unit to hold a second tray". Therefore, claim 22 is also vague and indefinite.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 22-26, 30, and 31, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by the Japanese Patent (JP 3-178792).

The Japanese Patent (JP 3-178792) shows a transferring apparatus comprising a main frame (4), a fixing means (52) installed on the main frame (4), and grippers (55, 55) to hold objects. Note that the Japanese Patent (JP 3-178792) is *capable of supporting at least two stacked objects, by the gripping means and the fixing means*.

Re claims 24-26, figure 7 shows biasing means, a spring (11), to correct the tilt angle of the gripped object.

Allowable Subject Matter

7. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

8. Claims 2-13, 15-21, and 27-29 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 3652

Response to Arguments

9. Applicant's arguments with respect to claims 22-26, 30, and 31 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
